

## Bringing the materials you imagine to life!

## Custom Solutions

# Custom learning—made easy!

When it comes to teaching and learning, one size definitely does not fit all. That's why we create custom learning materials that meet the unique needs of diverse educational programs. We work hand in hand with our customers to develop materials that meet their exact needs and specifications—on time and on budget!

*"Never have I had a resource like the SANDI to measure growth for my population of students. Now I have genuine data to show growth and progress—all aligned to standards. It's been a game changer."*

*—Kathryn Peterson,  
Adult Transition Program Teacher and Behavior  
Specialist, Murrieta Valley Unified School District*

## STEP 1

### Our experts meet with you.

- Our dedicated team of content experts will develop a detailed understanding of your needs and goals—examining the skills and outcomes critical to your program.
- To support your individual objectives, our experts possess deep knowledge across multiple branches of education and are grounded in current initiatives in the early childhood and elementary arenas.

## STEP 2

### We create a custom solution together.

- Our content experts partner with you and our product developers—who are all former teachers—to design materials that support the exact initiatives your state, district or program is working on.
- During the development process, we stay in constant contact with you to ensure your satisfaction every step of the way.

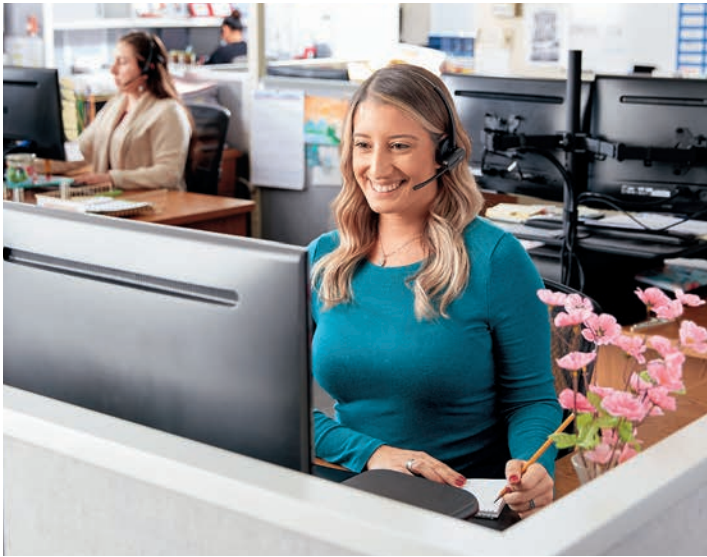

## STEP 3

### We deliver your materials and provide ongoing support.

- Once you approve the materials, we'll deliver them within the time frame agreed upon.
- We even offer personalized, hands-on services to support the implementation of your materials and help you meet program goals—such as professional development and training services.

*Our team members form close partnerships with the educators we serve. We work closely with our customers through the entire development process—from planning to delivery.*

# Our Collaborations in Family Engagement

## Customized Storybooks

## The Challenge

Many school districts struggle to find family engagement materials that reflect the diversity of their communities and honor the critical role families play in the education of their children. They also need materials that support key learning outcomes and standards for their students—while being fun and easy enough for families to enjoy at home.

## Customized Board Games

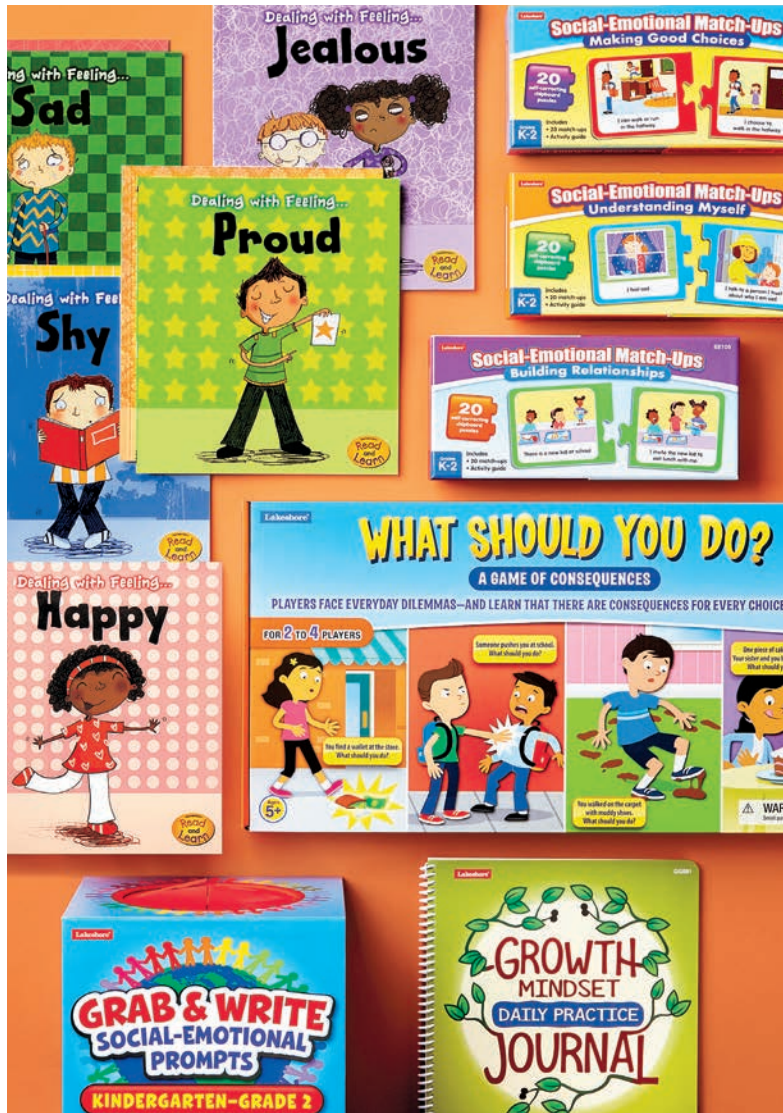

## Lakeshore's Solution

We've partnered with major school districts to create custom board games that feature diverse characters and familiar local landmarks that students can easily relate to, plus high-interest game cards that reinforce the concepts children are learning in school. We've also developed customized storybooks that encourage at-home reading—complete with educational tips that help parents extend learning outside the classroom.

# Our Work in Curriculum Support & Intervention

## The Challenge

Early childhood and elementary classrooms need to implement specific curricula or learning frameworks, but they don't always have materials aligned to their exact goals and objectives. These classrooms also require corresponding intervention materials to meet the needs of all students.

## Lakeshore's Solution

We've worked with school administrators to enhance their curriculum of choice, creating materials for whole-class, small-group and individual learning. For example, to incorporate social-emotional learning into an early elementary program, we've provided teaching kits with a variety of materials—such as games, writing prompts, books and journals—that make character development an integral part of the curriculum.

# Special Education Solutions

**SANDI**  
Student Annual Needs  
Determination Inventory

## The Challenge

Students with moderate to severe disabilities need access to hands-on materials and instructional tasks that are aligned to standards, developmentally appropriate and respectful of students' chronological age.

**RIVERSIDE COUNTY  
OFFICE OF EDUCATION**  
EDWIN GOMEZ, Ed.D. | County Superintendent of Schools

## Lakeshore's Solution

We worked with content experts to develop English Language Arts and Math Instructional Support Kits to provide standards-based activities and ready-to-use materials for students who are assessed using the SANDI/FAST System (Student Annual Needs Determination Inventory/Formative Assessment of Standards Tasks). The SANDI/FAST assessment was developed by the Riverside County Office of Education and is published by Lakeshore.

# We've created ***thousands*** of materials to support:

- School Readiness (English/Spanish)
- Outdoor Learning
- STEM/STEAM
- Head Start and Early Head Start
- Classroom Management
- Assessment
- Differentiated Instruction
- Home Visitation Programs
- Summer Programs
- Before and After School Programs
- Gifted and Talented Programs
- Family Engagement
- Curriculum Support
- Intervention Materials
- Social-Emotional Competence
- Special Education
- Virtual/Distance Learning

*"I can't tell you how happy I am with the final product. This project was a true collaboration that I am confident will reap great rewards for our students when they transition to kindergarten. Thank you so much!"*

*—Sonya McSwain,  
Director of Early Childhood Education,  
Duval County Public Schools*
